241016 / FoF 5 — z=35 (zero-based)
Every exported connected component; n=1,314 in the full 3D stack

A Green + red fluorescence
White outlines: selected segmentation masks

C1 Supplied phase thresholds
200 selected units intersect this plane

G1S G1 S G2M

Phase assignments use full 3D measurements. Fixed display stretches across all panels and slices; native image/mask coordinates.
C1: green gate 0.003; red gate 0.0095. Only the selected measurement units are colored.
